

PARTICIPANT REVIEWS

"I think this class benefits EVERYONE, and all parents ought to join this class for the sake of their children."

"This class is a jump-start to a healthy divorce."

"I wish I would have known of this class 7 years ago at the start of my divorce. I feel that I would have benefited from it at early start for the children."

"I feel this class is a good icebreaker when parents are stuck in "my way, your way" behavior."

"Painful mirror reflection of what I have done to contribute to the unsuccessful resolution to this divorce. I leave here with less anger towards the other parent and more ownership of what I can and should do going forward. This class helped put my focus off myself and back towards my children."

"I found this class amazingly informative. It made me look at myself retrospectively. It's helped me realize there are things I need to take responsibility for, not be victim. There is always room for improvement in one's parenting role."
